## ABOUT ECO FLOFO

Realizing that the export - import trend of the Vietnamese market tends to develop strongly, Eco FloFo Global Trading Company Limited was born with the intention to support customers on issues related to commercial strategies in general and transportation solutions in particular. Besides, we will also ensure that customer requests are implemented in accordance with domestic and international laws. With all our efforts, we desire to conquer the global market.

# OUR VISION & MISSION

## VISION

Build and develop Eco FloFo to become a globally reputable and highly specialized enterprise in the field of transportation consulting & trade connection, helping customers optimize Logistics costs as well as obtain product sources which have high quality and competitive prices in the market.

## MISSION

- For customers:

Committing to giving customers the best products and logistics services by constantly striving to develop green and sustainable products and services at affordable prices to meet the needs of domestic and foreign markets.

- For partners:

Building a cooperative relationship based on prestige, trust and mutual support.

- For employees:

Building a professional, dynamic and creative working environment so that the workforce has the opportunity to develop their full abilities.

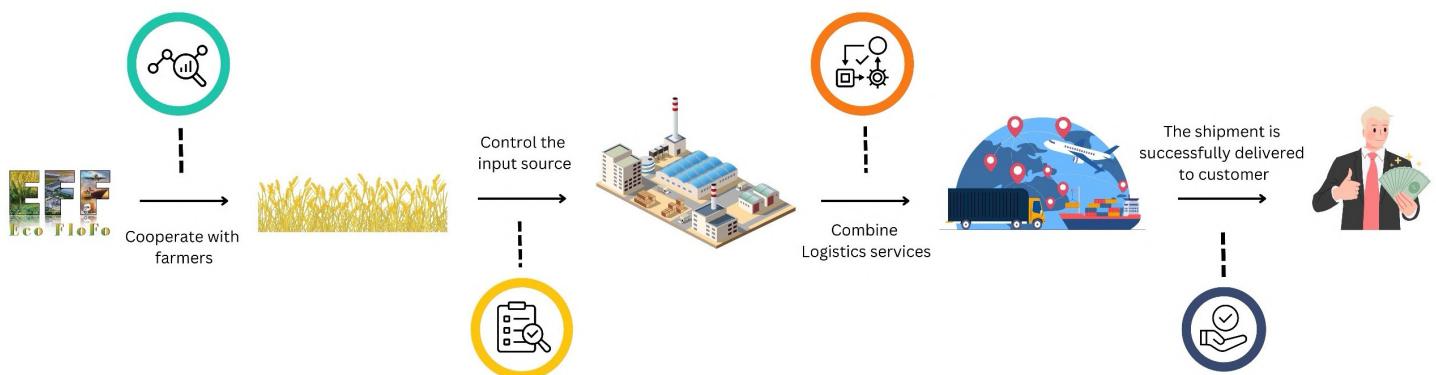

- For society:

Always remembering that Eco FloFo's benefits are associated with the benefits of society and activities that contribute to society are an indispensable part of Eco FloFo's responsibility to the community.

# THE CORE STRENGTH OF ECO FLOFO

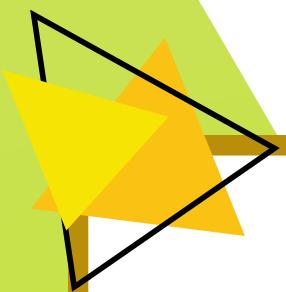

We cooperate with farmers to directly ensure the productivity and quality of products. In addition, Eco FloFo has a team of experts with many years of experience in the field of Logistics and supply chain management. In particular, the company also owns a global transportation network, including rail, sea, and aviation to meet the diverse delivery needs of customers.

# SPICE

# SUGAR (IMPORT)

## ICUMSA 45 WHITE SUGAR

- Rating: ICUMSA 45 RBU Attenuation Index Unit (method #: 4-1978)
- Polarization: At 20 Degrees Celsius – 99.80 %
- Ash content (%), maximum: 0.04% by weight SCO
- Moisture (%), maximum: 0.04%
- Solubility: 100% Dry and Free Flowing
- Color: Sparkling White
- Radiation: Internationally Accepted Limit W/O Presence Of Cesium Or Iodine
- Magnetic Particles (%), maximum: 4 mg/kg
- SO<sub>2</sub> (%), maximum: 20 mg/kg
- Smell: Free Of Odor
- Sugar Reduction (%), maximum: maximum 0.010% by weight
- Maximum AS level: 1 P.P.M.
- Maximum CU level: 3 P.P.M.
- Maximum PS level: 2 P.P.M.
- Shape: Solid Crystal
- Origin: Brazil/Thailand/Cambodia
- Crop: Latest
- Packaging: White 50kgs PP Bag

### DRIED CHILI

- Origin: Vietnam
- Drying method: AD or Dry by Sunshine
- Taste: Spicy (Pungency degree: mild, medium, high)
- Color: red nature
- Moisture: 13.0% max
- Quality: 100% pure natural non-additives chili, No artificial colors; No preservatives
- Shelf life: 24 months
- New crop
- Average length of whole chili: 2-5 cm, 5-7 cm, 7 cm or more
- Packaging: White 50kgs PP/PE bag or as requests

# GINGER (EXPORT)

## DRIED GINGER

- Origin: Vietnam
- Drying method: Air dried
- Color: Natural color
- Moisture (%), maximum): 10.0%
- Shelf life: 12 months
- New crop
- Average size of whole slice: 2 - 6 cm
- Average thickness of whole slice: 1.8 - 2.2 mm,  
3 - 5 mm
- Packaging: 20 - 50kgs PP/PE bag or as  
requests

### BLACK PEPPER (ASTA STANDARD)

- Origin: Vietnam
- Density: 500gl - 550gl - 570gl - 580gl
- Moisture (%, maximum): 12.5%
- Admixture (%, maximum): 0.2%
- Sterilization method: ETO Treated and Steam Treated
- Packaging: 25 - 50kgs PP/Paper bag

### BLACK PEPPER (FAQ STANDARD)

- Origin: Vietnam
- Density: 500gl - 550gl - 570gl - 580gl
- Moisture (%, maximum): 13.5%
- Admixture (%, maximum): 1.0%
- Packaging: 25 - 50kgs PP/Paper bag

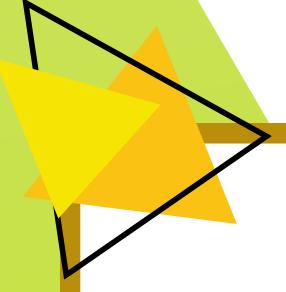

## **WHITE PEPPER (DOUBLE WASHED STANDARD)**

- Origin: Vietnam
- Density: 630gl Min
- Moisture (% , maximum): 13.5%
- Admixture (% , maximum): 0.2%
- Black seeds: 2% max
- Sterilization method: ETO Treated and Steam Treated
- Packaging: 25 - 50kgs PP/Paper bag

## **BLACK PEPPER (LIGHT BERRY STANDARD)**

- Origin: Vietnam
- Density: 200-250-300-400-450gl
- Moisture (% , maximum): 13.5%
- Admixture (% , maximum): 3.0%
- Uses: Grinding or Extracting oil
- Packaging: 25 - 50kgs PP/Paper bag

# FRUITS

# DRAGON FRUIT (EXPORT)

## WHITE FLESH DRAGON FRUIT

- Origin: Vietnam
- Color: Red skin, white flesh
- Sugar ratio: 10.0%
- Shape: Elliptical form, long ears
- Brix: 16.6
- Shelf life: 4 - 6 weeks (from the time of harvest)
- Packaging: 15kgs/carton or as requests

## PINK FLESH DRAGON FRUIT

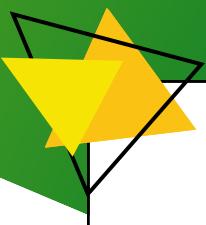

- Origin: Vietnam
- Color: Red skin, pink flesh
- Sugar ratio: 15.0 - 18.0%
- Shape: Round shape, long and curved ears.
- Brix: 17.8
- Shelf life: 4 - 6 weeks (from the time of harvest)
- Packaging: 15kgs/carton or as requests

## PASSION FRUIT

- Origin: Vietnam
- Shape: Oval
- Color: Purple skin, orange-yellow pulp
- Weight: 60 grams or more/fruit (10 - 12 fruits/kg)
- Protein: 1.2 - 2.4%
- Sugar ratio: 15.0 - 18.0%
- Packaging: 10kgs/carton or as requests

# MANGO (EXPORT)

## FRESH MANGO

- Origin: Vietnam
- Varieties: Kaew, Cat Chu, Taiwan
- Color: Green/yellow skin, green/yellow flesh
- Average size of whole fruit: 10 - 15 cm/fruit
- Average weight of whole fruit: 400 - 600 grams/fruit
- Storage temperature: ≤ 8°C
- Shelf life: 4 - 6 weeks (from the time of harvest)
- Packaging: 15kgs/carton or as requests

## FROZEN MANGO

- Origin: Vietnam
- Varieties: Kaew, Cat Chu, Taiwan
- Color: Natural yellow
- Shape: Cut into slices
- Frozen method: FD
- Moisture (%, maximum): 5.0%
- Storage temperature: ≤ -18°C
- Shelf life: 1 year at ≤ -18°C
- Packaging: 10kgs/carton or as requests

# DURIAN (EXPORT)

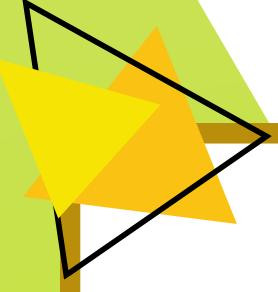

## FRESH DURIAN

- Origin: Vietnam
- Appearance: Yellow flesh with a typical durian aroma
- Storage temperature:  $\leq 8^{\circ}\text{C}$
- Coliforms: None
- Ecoli: None
- Shelf life: 1 month at  $\leq 8^{\circ}\text{C}$
- Pesticide residue: Based on regulations of the importing country
- Packaging: 15kgs/carton or as requests

## FROZEN DURIAN

- Origin: Vietnam
- Appearance: Yellow flesh with a typical durian aroma
- Freezing Process: IQF
- Storage temperature:  $\leq -18^{\circ}\text{C}$
- Coliforms: None
- Ecoli: None
- Shelf life: 1 year at  $\leq -18^{\circ}\text{C}$
- Packaging: 20kgs/carton or as requests

# FARMING & RANCHING

## CASSAVA SLICES (EXPORT)

### DRIED CASSAVA SLICES

- Origin: Vietnam
- Starch (%), minimum: 70.0%
- Moisture (%), maximum: 16.0%
- Raw Fiber (%), maximum: 5.0%
- Foreign Matters (sand/silica): 3.0%
- Mold/Insects/Chemicals: None
- Packaging: 750 - 900kgs in Jumbo bag

# RAW MATERIALS FOR ANIMAL FEED (IMPORT)

- Broken rate (%), maximum: 3.0%
- Foreign Matter (%), maximum: 1.5%
- Immature seeds (%), maximum: 2.0%
- Admixture (%), maximum: 2.0%
- Standard: GMO
- Crop: Latest
- Packaging: White 50kgs PP Bag

## SOYBEANS

- Origin: Brazil/USA
- Moisture (%), maximum: 13.0%
- Protein (%), minimum: 46.0%
- Fiber (%), maximum: 7.0%
- Fatty acids (%), maximum: 2.0%
- AFLATOXIN (%), maximum: 20 P.P.B
- Standard: Non-GMO
- Packaging: 600 - 700kgs in Jumbo bag

# ORGANIC FERTILIZER (IMPORT)

## KOREAN CHICKEN MANURE

- Origin: Korea
- Moisture (% maximum): 6.25% (Dried at 70°C)
- Organic Matter (% maximum): 90.5%
- Nitrogen (% maximum): 5.5%

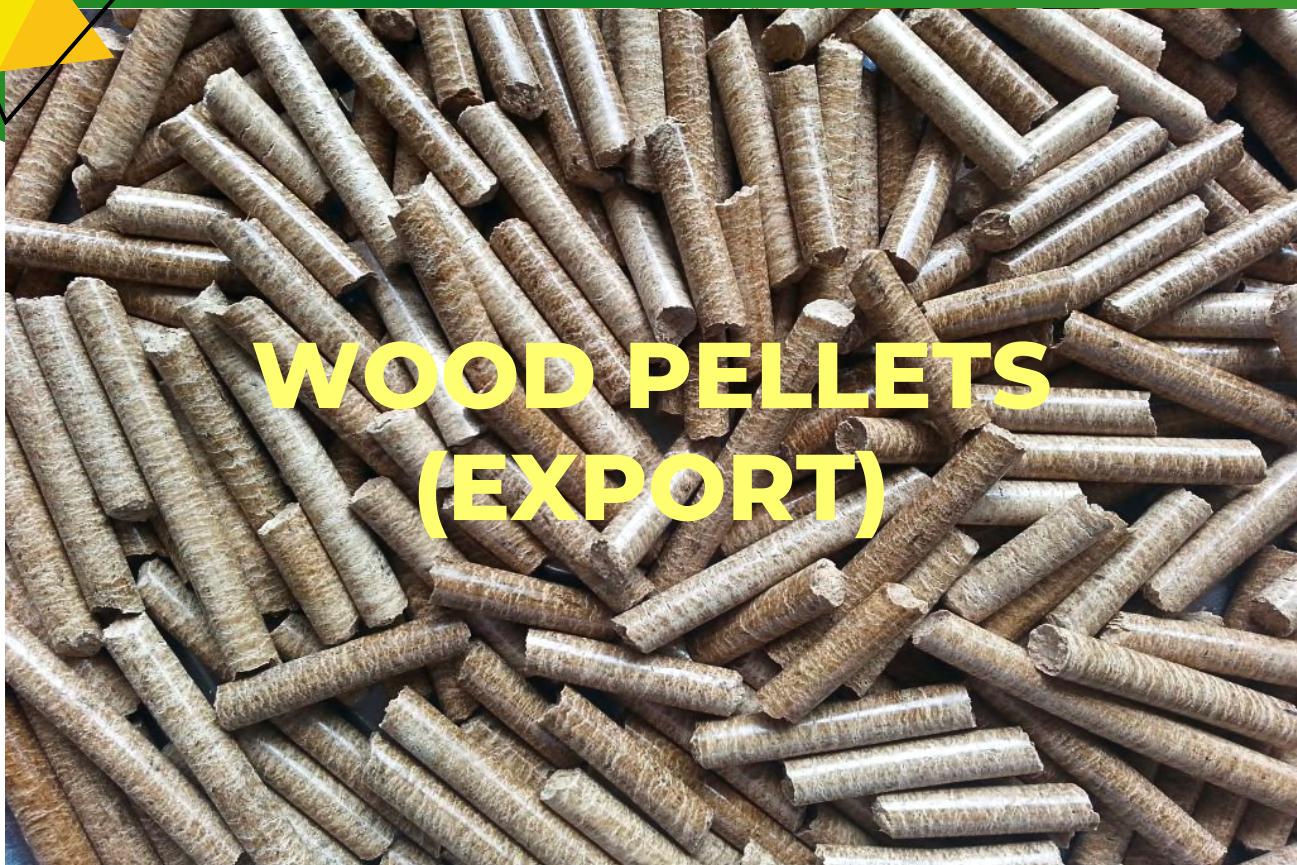

**JAPANESE CHICKEN MANURE**

- Origin: Japan
- Component: NPK 2-4-4
- C/N Ratio: 12
- Moisture (% maximum): 11.0%
- Nitrogen content (% maximum): 2.4%
- P2O5 content (% maximum): 4.7%
- K2O content (% maximum): 4.0%
- PH-H2O: 7.7
- Cation Exchange Capacity: 48meq/100g

**FUEL**

## WOOD PELLETS (EXPORT)

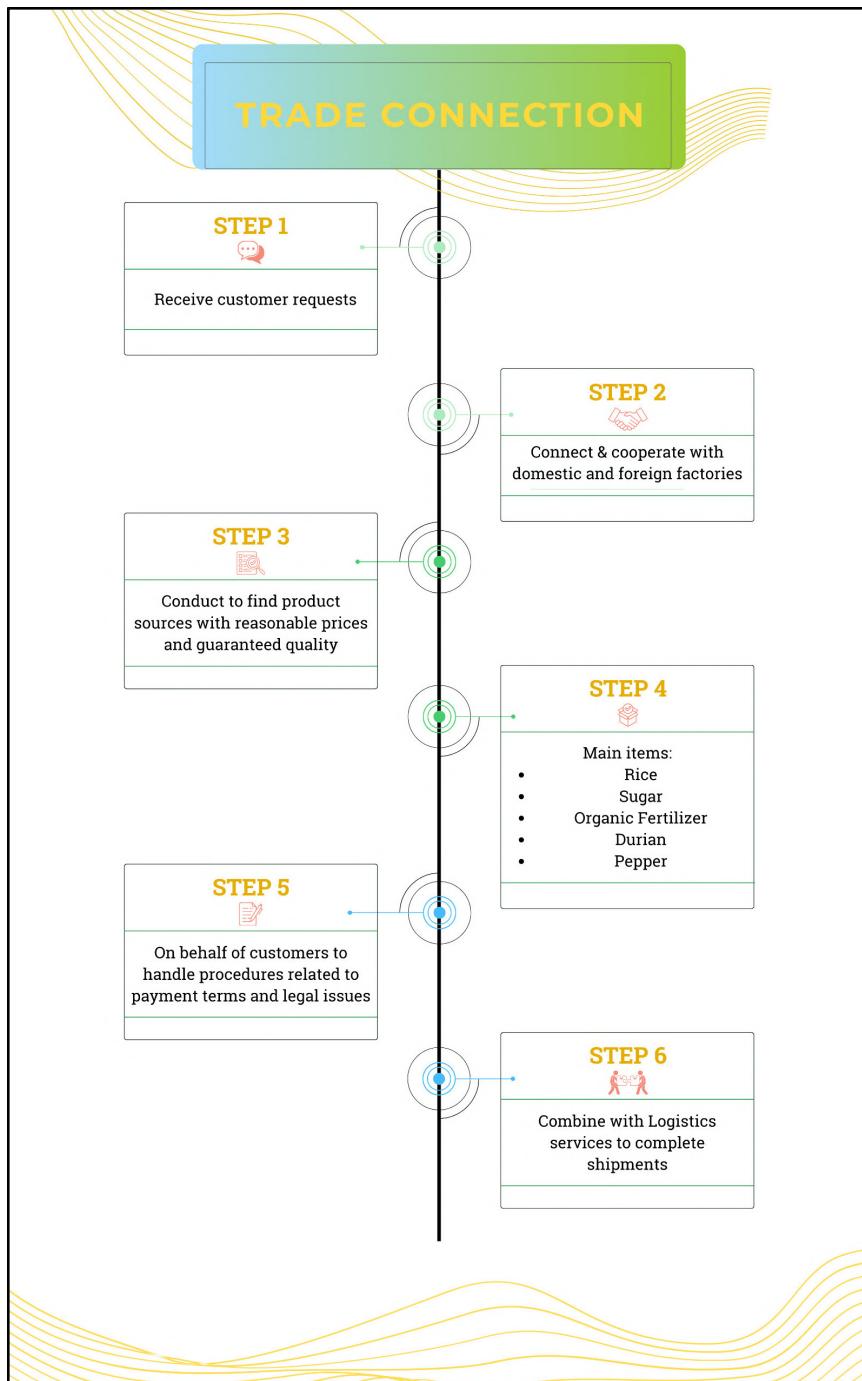

### WOOD PELLETS

- Origin: Vietnam
- Average size of whole pellet: 3 - 12 mm
- Moisture (%, maximum): 10.0%
- Wood Type: Pine/Rubber/Acacia
- Foreign Matters: None
- Powder ratio: Not available
- Color: Brown
- Packaging: 600 - 700kgs in Jumbo bag

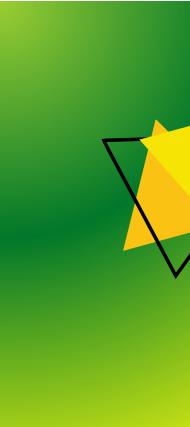

# IMPLEMENTATION PROCESS OF **TRADE CONNECTION**

**\*\*\*Note:**

If there is any product that is not listed in the Business Portfolio, please send information related to that item (product name, product specification, volume,...) to Eco FloFo. We are always willing to support customers.

# TRANSPORTATION CONSULTANCY

# AIR TRANSPORTATION

**Air transportation is considered as the fastest mode of transport compared to the remaining methods. In addition, this is also an effective solution for items that need delivering in a short time.**

Eco FloFo has a variety of services in controlling the transportation of goods (airport-airport, door-airport, airport-door, door-door):

- Import & Export Consol goods
- Packing and Crating
- Cargo Insurance
- Loading & Unloading Service
- Domestic Pick-up and Delivery Service
- Customs Declaration
- Fumigation
- Entrusted Import/Export Service
- Certificates of Origin
- Other Certificates

# SEA TRANSPORTATION

***Sea transportation is one of the key elements in multimodal transportation. To provide the best service to customers, we have a team of skilled personnel specializing in transporting FCL, LCL, Oversized Cargo, Project Cargo and other types of goods in domestic and international areas.***

Eco FloFo commits to giving much more flexible and cost-effective transportation options than other transportation units to customers. We provide not only port-to-port transportation service, but also door-to-door solution:

- Import & Export Consol goods
- Packing and Crating
- Cargo Insurance
- Loading & Unloading Service
- Domestic Pick-up and Delivery Service
- Customs Declaration
- Fumigation
- Entrusted Import/Export Service
- Certificates of Origin
- Other Certificates

## ROAD TRANSPORTATION

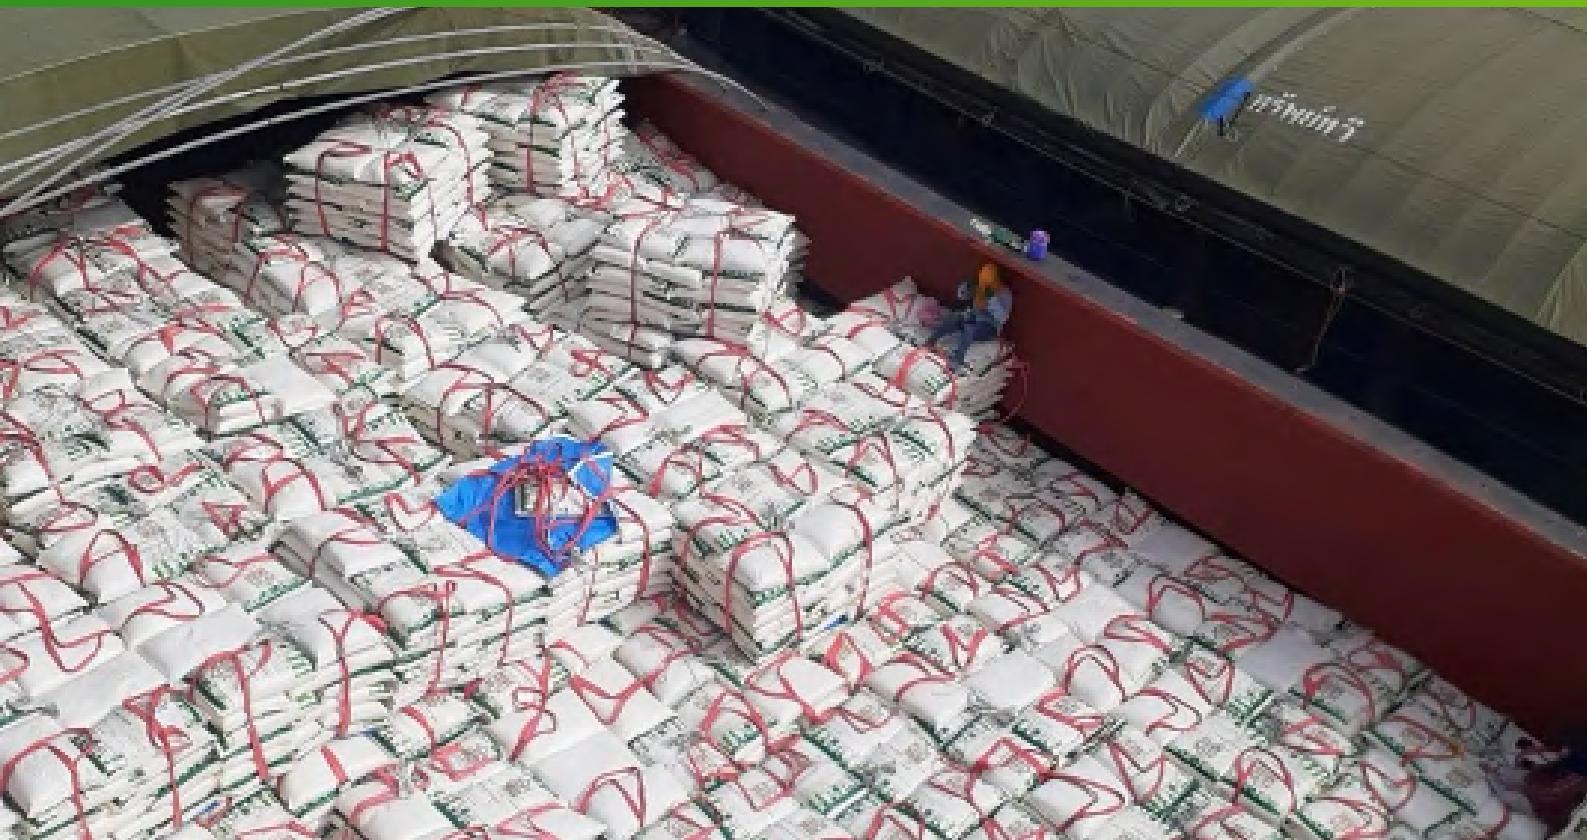

**Road transportation is an important part of the Logistics chain. In terms of road transportation, we most focus on inland delivery. Specifically, we will take advantage of over 100 trucks and containers across the country for transporting FCL, LCL, Oversized Cargo, Project Cargo and other types of goods in domestic regions.**

Eco FloFo has a variety of services in controlling the transportation of goods (airport-Eco FloFo always tries our best to enhance the quality and efficiency of this transportation method by:

- FCL/LCL Pick-up and Delivery Service
- Packing and Crating
- Cargo Insurance
- Loading & Unloading Service
- Fumigation
- GPS system application for each shipment

# BULK CARGO TRANSPORTATION

**In terms of carriage in bulk such as rice, sugar, soybeans and so on, Eco FloFo is not only a reputable unit in the field of Transportation Consultancy but also a successful organization in Trade Connection. Therefore, we are confident in giving customers effective solutions in transporting bulk goods as well as supporting customers in controlling the quality of products.**

With long-term experience in the industry along with a deep understanding of the work process, Eco FloFo's staff can carry out:

- Loading & Unloading Schedules Arrangement
- Combination of Barge Transportation
- Cargo Insurance
- Customs Declaration
- Fumigation
- Entrusted Import/Export Service
- Certificates of Origin
- Other Certificates

# OVERSIZED CARGO TRANSPORTATION

**Oversized cargo transportation focuses on packages, machinery, and equipment that their weight or size exceeds the prescribed level regulated by Vietnam's Ministry of Transport. Because these special items cannot be disassembled, Eco FloFo's experienced personnel will always involves exchanges with customers to promptly update relevant information during the process of preparing a specific transportation strategy.**

Eco FloFo will have a supervisor at port on site 24/7 to control and coordinate all safety-related issues and ensure transportation progress. Oversized cargo transportation services include:

- Surveying Surrounding Areas of Factory
- Lashing Service
- Cargo Insurance
- Combination of Barge & Road Transportation
- Loading & Unloading Service
- Domestic Pick-up and Delivery Service
- Customs Declaration
- Entrusted Import/Export Service
- Certificates of Origin
- Other Certificates

# BARGE TRANSPORTATION

***Barge transportation is usually used for the inland waterway to deliver goods on rivers, canals or shallow waters.***

Popular Types of Barges:

#### Dry Bulk Cargo Barges

- Transporting Construction Materials: Sand, stone, rebar,...

#### Liquid Cargo Barges

- Transporting Liquid Items: chemicals, fertilizers and other liquid cargo

#### Crane Barges

- Offshore Construction and Repair
- Pipework Installation
- Marine salvage

#### Hopper Barges

- Transporting Agricultural Items: Rice, soybeans,...
- Transporting Industrial items: Steel, wood, cement and other industrial materials.

# CUSTOMS CLEARANCE

**Customs clearance is applied for goods that is imported or exported across the border of a nation. These procedures help the government control the circulation of goods, collect taxes, and ensure national safety.**

**Recognizing the importance of this issue, Eco FloFo has successfully built a team of skilled personnel in handling issues related to customs clearance for each different item. Besides, we also cooperate with many reputable Logistics partners in many countries around the world, ensuring that customers' goods are always transported smoothly and safely.**

Eco FloFo's Customs Clearance services include:

- Customs Evaluation of merchandise
- Import Duty & Tax Assessment
- Classification of HS Codes for goods
- Import/Export Permissions of Controlled Items
- Payment of Custom Duties On Customers Behalf
- Temporary Import/Export Procedures
- Permanent Import/Export Procedures
- Customs Bonded Carriage
- Handling Customs Procedures For Goods In Transit

# WAREHOUSE MANAGEMENT

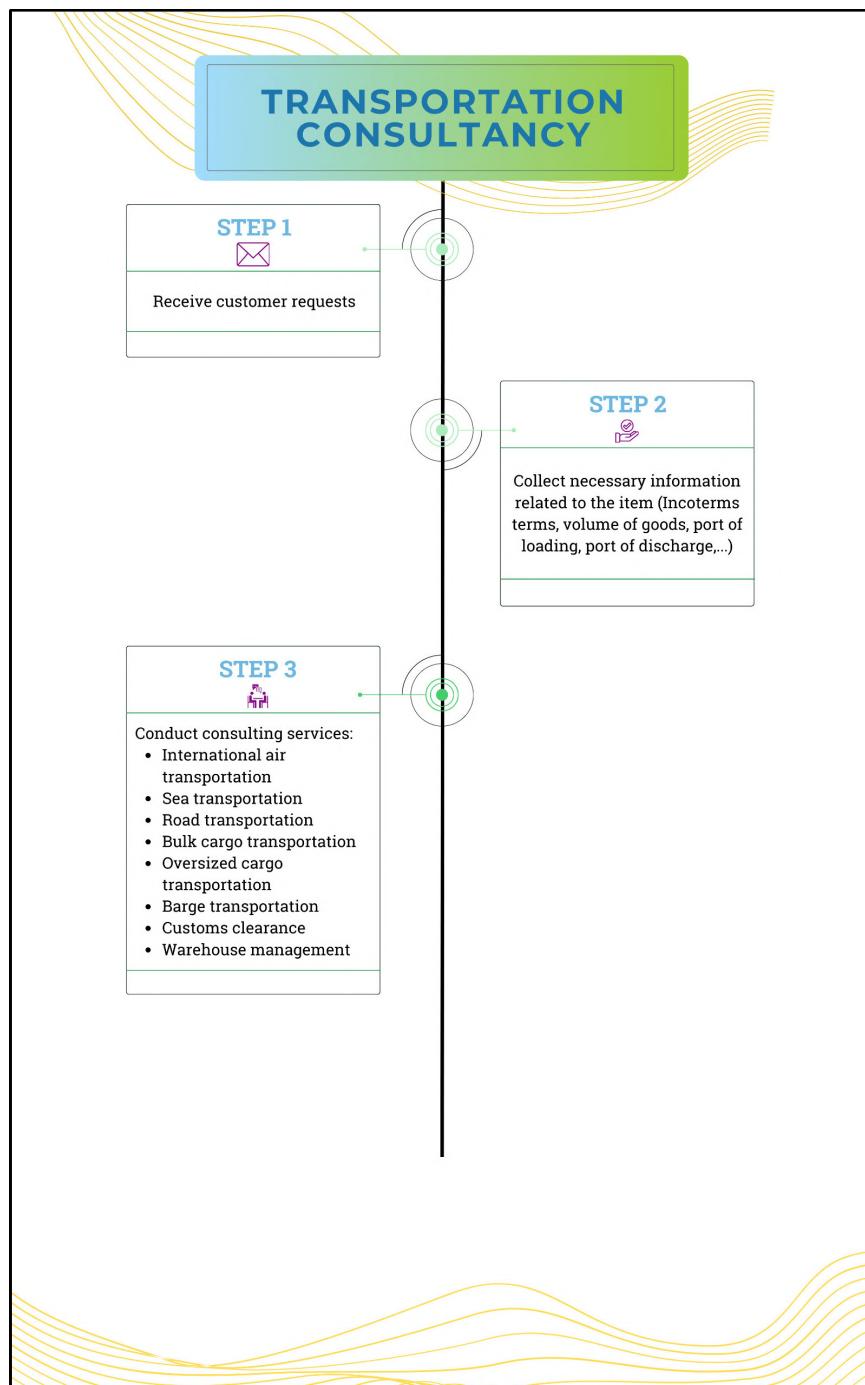

***With an extensive warehouse system throughout Vietnam as well as in other countries such as China, America, England,... Eco FloFo can help customers solve the problem of renting warehouses to store goods.***

Eco FloFo's warehouse services include:

- Short-term and Long-term Storage
- Packing and Crating
- Domestic Pick-up and Delivery Service
- Cargo Insurance
- Loading & Unloading Service

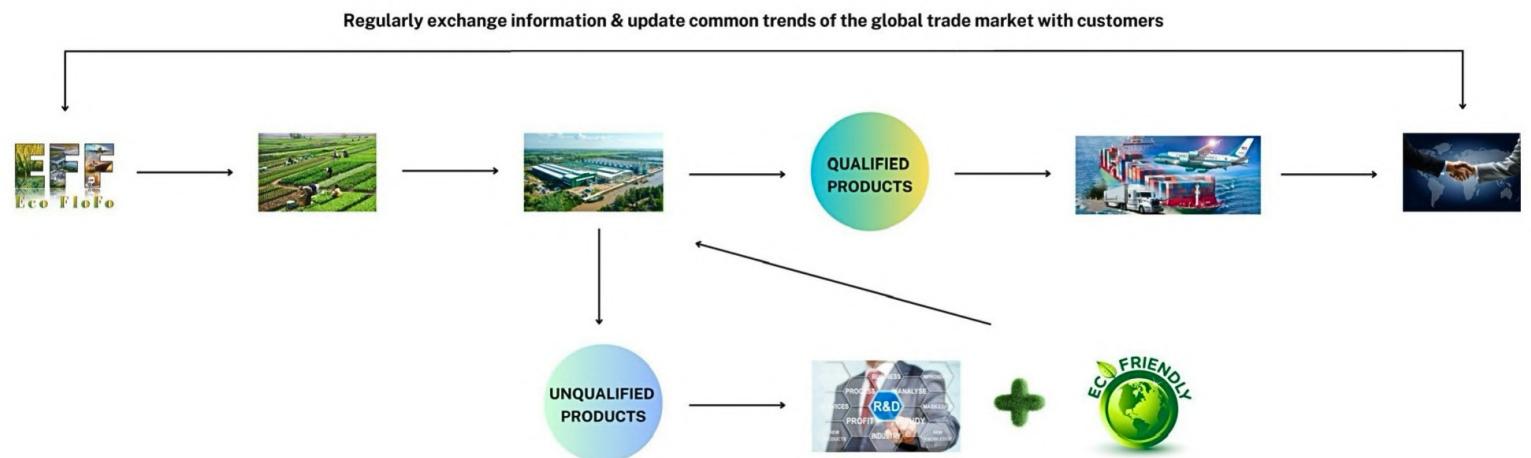

## IMPLEMENTATION PROCESS OF **TRANSPORTATION CONSULTANCY**

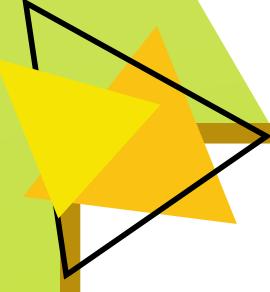

# SUSTAINABLE PROCESS IN INTERNATIONAL TRADE

In Eco FloFo's business activities, we always aim for sustainable and environmentally friendly criteria. Therefore, volumes of products that do not meet quality standards for export/import will be considered by factories and then reported to Eco FloFo.

We will cooperate with enterprises which operate in the recycling field and utilize their R&D division to develop other additional products that are useful in society such as: unqualified rice that can be made into cosmetics, unqualified wood pellets that can be crushed before being pressed into paper-related items, unqualified fruits that can be converted into organic fertilizer,...

# ECO FLOFO'S CORPORATE SOCIAL RESPONSIBILITY PROJECTS

## ECO FLOFO

As a socially responsible company, we operate in a way that not only fosters our own business but also contributes to society. Although our contribution is still modest, we believe that growing a business will bring in positive influence on the society and local community.

*Eco FloFo have strived to perform socially responsible activities in various directions:*

We deduct a part of our business's profits to raise funds to help minority and poor local households

We cooperate with farmers to build green strategies in planting and harvesting to ensure product quality

We organize outdoor activities for employees to help them release stress in work. Besides, we recognize positive efforts of excellent personnel with worthy rewards.

We associate with many companies in the recycling field to convert unqualified products for import/export in the production process into sustainable items which are useful in society
